50 WAYS TO ACHIEVE SOMETHING RIGHT NOW

Most people use the excuse, "I can't afford that" for not doing something different and really beneficial in their business or their life. If you understand that when you ask for something, "it" is always given to you in the form of an opportunity (not a cheque in the post), you realise you can afford that thing. "The way" for you to afford something is already in your life — something you haven't taken action on yet. So, instead of saying, "I can't afford that", change your mindset to say, "How CAN I afford that?" and your mind will immediately shift to finding solutions that already exist.

Please write down 50 different ways (yes, 50 — not just 16 or 26) you can make money right now in your business (an opportunity you haven't said yes to yet) or in you personal life (house-sitting, cooking classes, etc.) Nothing is too crazy or far-fetched to write down. This is a mind-stretching exercise to help you get more creative about finding solutions. You'll then take action on the best 6–9. If you stop short of 50, keep going until you've finished. (Hint: the Universe will fill the rest in for you.)
